

Inclusive Clubs Project

Expression of Interest

Access Health and Community, alongside the City of Boroondara, Manningham Council, and City of Whitehorse, presents the Inclusive Clubs program.

Free to all sports clubs to attend, the program is built on the foundation principles of diversity, equity and inclusion. This initiative offers clubs a dynamic platform to learn about how best to tackle inclusion and diversity at their club through self-assessment, education and strategy development all leading to the production of their club's very own tailored action plan with short, medium and long term goals.

This program is **Free** to join and all club members are welcome to participate. We would recommend 2 attend each session from each Club.

Expressions of interest close 10 June at midnight.
