## Access and Signage Upgrade Works

**Site:** Craig Family Centre and Craig Centre Car Park  
7-9 Samarinda Ave, Ashburton

## Work details

It is proposed to undertake access and signage upgrade works in the car park servicing The Craig and Craig Family Centre. The works will involve the implementation of:

- a new zebra crossing in front of the Craig Family Centre
- a new disabled car space and walkway in front of the Craig Centre
- new car park entry signs and directional signage in front of the main entry points of both buildings

## When

The works are expected to commence late January 2018 and are anticipated to be finished by late February 2018. Due to the nature of the construction industry, there will be periods when there will be no construction staff on site. During these periods the site will be maintained in a safe state.

## Parking/traffic restrictions

During construction, parking will be restricted to allow the builder to undertake the works. The Principal Contractor will erect a temporary fence to separate the Contractor's access from the remainder of the site and has an obligation to ensure that access and parking is carried out in a safe and controlled manner. Construction vehicles will enter the site via the north-west car park entrance and will park within the designated fenced area.

For the duration of the works, visitor access to the buildings will be provided via the Craig Family Centre only. Visitors will need to use the internal link to access the Maternal Child Health Centre, Neighborhood House and Access Health Services currently located within the Craig Centre. Please refer to the attached map for further information.

## Funding

These works are being funded by Council.
